Reading Leads the Conigrs in a Wild Ad-New York, Feb. 11.-There was no let up this morning in the activity which has characterized the dealings on the stock exchange for the past two days. Trading was on an enormous scale, and far exceeded that of any business done during the morning hours within the memory of some of the older members of the exchange. Sales to noon amounted to nearly a million shares, and in round numbers aggregated exactly 864,900 shares. Reading monopo-lized the attention of speculators. The magnitude of the transactions in that stock was un heard of and within the first few minutes of business 100,000 shares of it had been sold. It opened 81% per cent higher at 5716 and on excitement, its price climbed almost in a twink-ling to 64. Transactions of 1,000 shares were exceptionally small.

A few minutes later the price of Reading
